

Quingo™ Docking Station Fit Guide

Indicated measurements are the minimums required for a fit of the Docking Station in your vehicle. Please measure carefully.

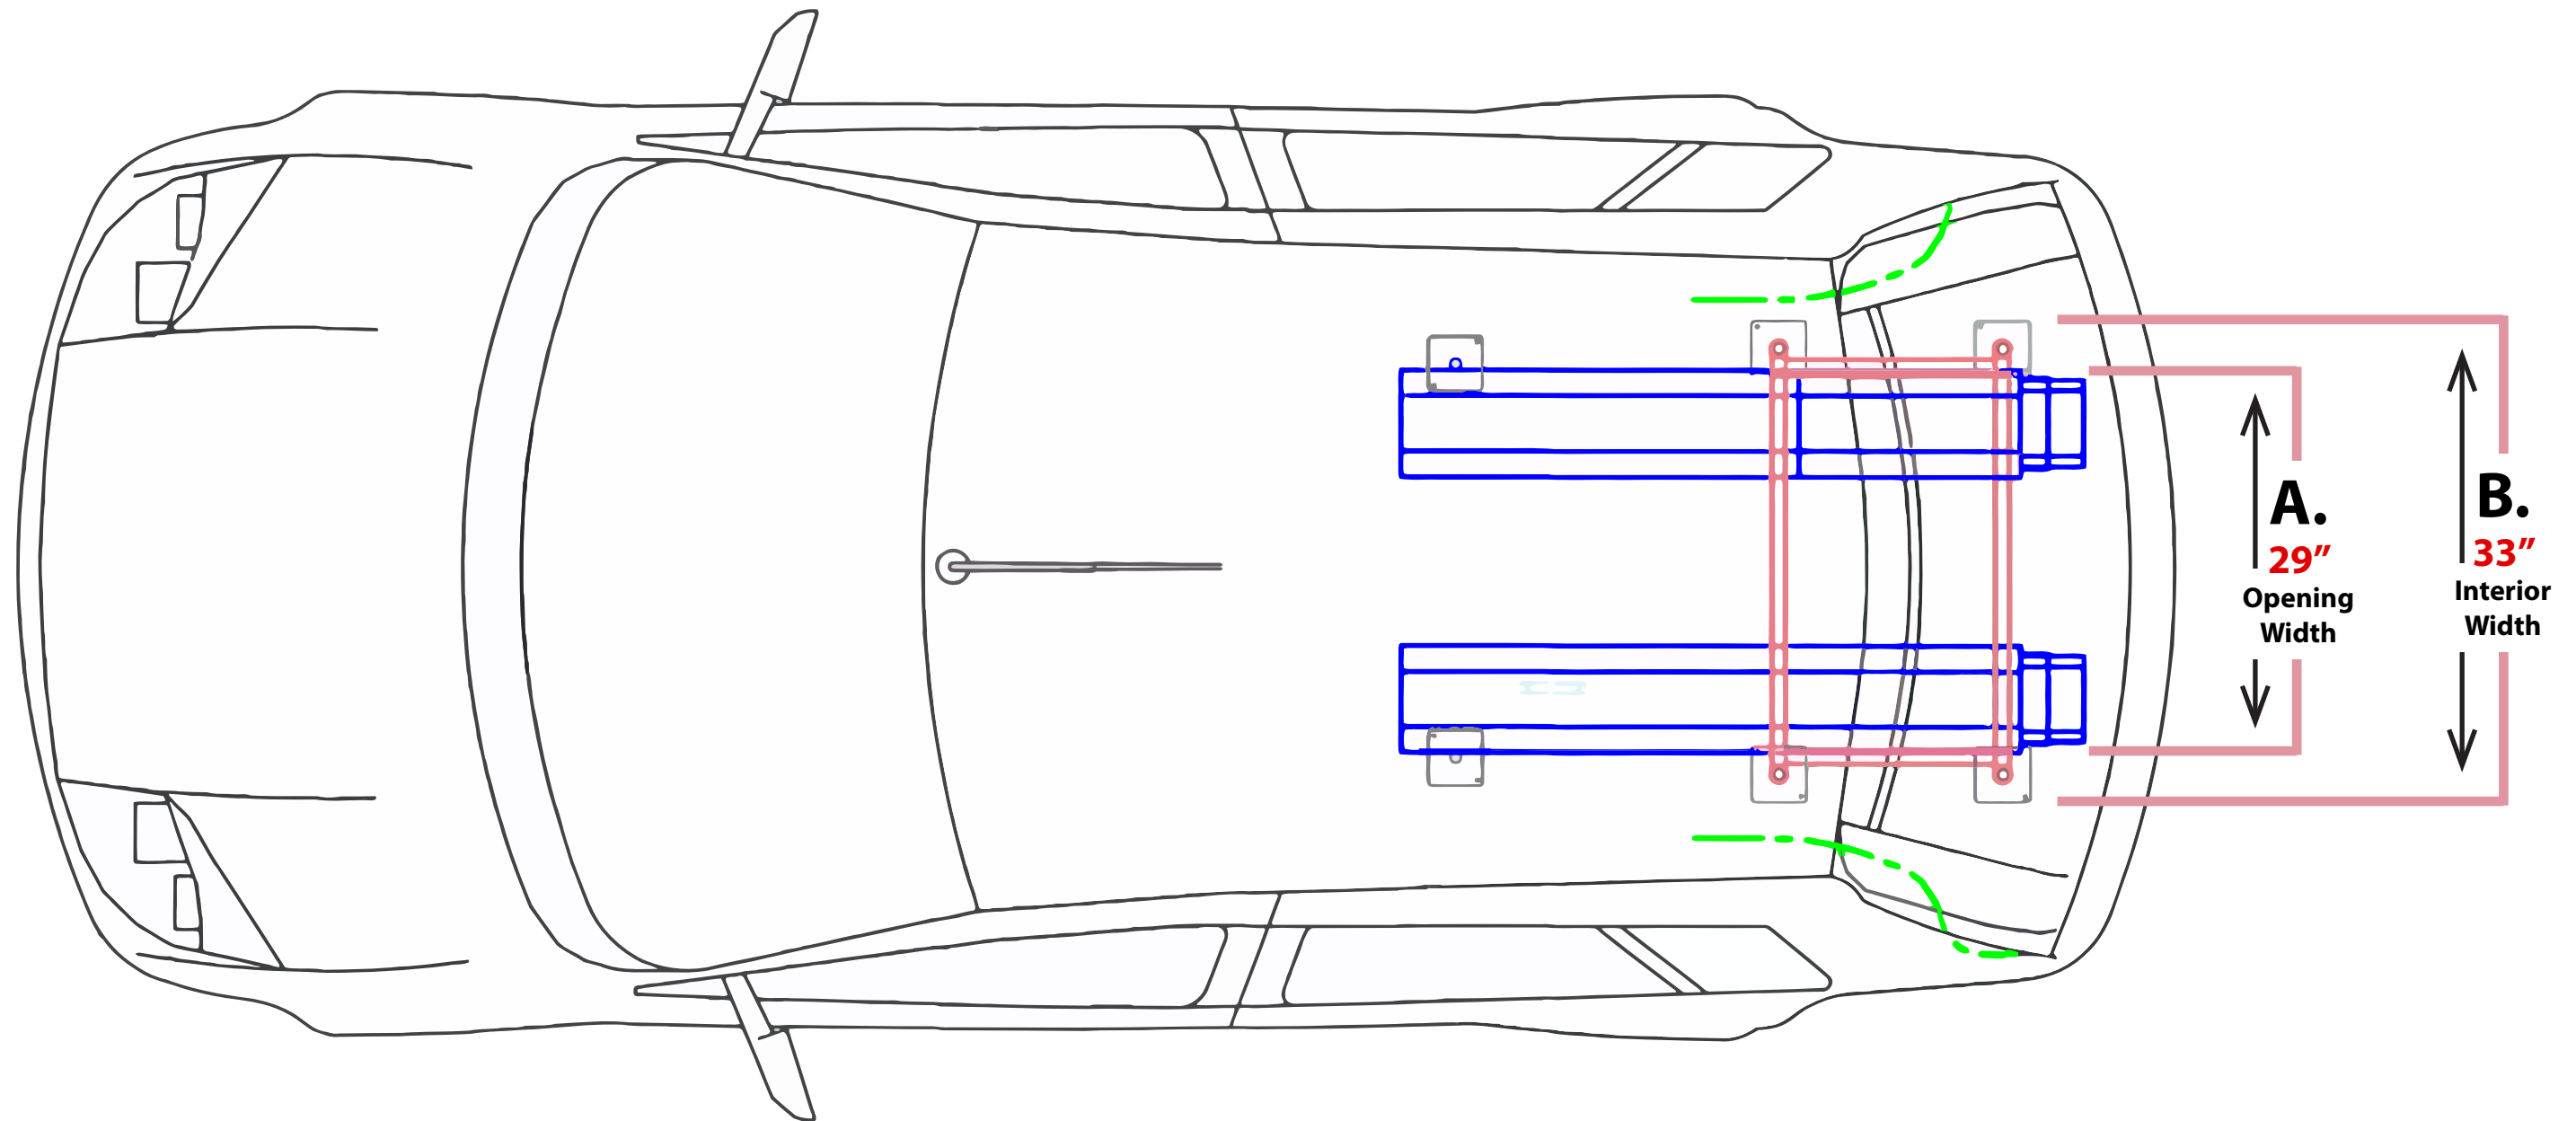

**In order for the Docking Station to fit in your vehicle, you will need at least the space indicated by these measurements.
If your vehicle's measurements are less than these, the Docking Station will not fit in your vehicle.**

- A.** Total length of rear cargo area (for proper fit some or all rear seats may need to be folded down)
- B.** Height of rear opening with lift gate open (SUVs, Crossovers & Minivans)

Quingo™ Docking Station Fit Guide

Minimum Available Space Measurements

A. Width of rear opening with lift gate (this is the width of the docking station rails when installed)

B. Cargo space width requirement for foot supports
